***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance:

Claims 1-3 are allowable over the prior art of record because the prior art of record does not teach or suggest the entire combination of elements of the recording and/or reproducing apparatus set forth including a partition having an opening portion which separates the cartridge loading member and the take-up mechanism and the partition including a shutter mechanism for opening or closing the opening portion which allows the carrying mechanism to carry the magnetic tape to be pulled through to the take-up mechanism. None of the references of the prior art teach or suggest partition having an opening and a shutter as advanced above and such do not provide the necessary motivation, absent applicant's specification, for modifying the recording and/or reproducing apparatus in the manner required by the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
